The Big Questions Books, a new subseries of Studies in Social Inequality, provides an outlet for cutting-edge commentaries on the causes and consequences of contemporary inequality. As the study of inequality becomes ever more specialized, interdisciplinary, and sprawling, there is a growing need for essay-length books that allow scholars to weigh in on relevant debates while freed from the technical requirements of scholarly journal articles and the elaborate documentation of full-length research monographs. This new subseries will feature books that are short and incisive, often controversial, and always widely read.

**Sponsor:** The Stanford Center on Poverty and Inequality  
**Publisher:** Stanford University Press  
**Series Editors:** David B. Grusky and Paula England

**Incisive:** Essay-length format avoids the distractions of unnecessary formalization or technical detail

**Controversial:** Provocatively argued even while exposing readers to alternative positions and inevitable ambiguities in evidence

**Broad audience:** Readership expanded beyond specialist markets by reducing formalization and focusing on debates of broad interest

**Quick to market:** Time to market minimized by building contributions around existing research programs and previously published work

**All-star cast:** Agenda-setting, high-profile authors

### Possible Future Titles

- Why Is There So Much Poverty?  
- Globalization and Inequality  
- Will There Be More Egalitarian Revolutions?  
- Prisons and Inequality
